EXPERIENCE

FrontEnd Developer

Feb 2023 - Current | YAM Finance

- Designed and developed frontEnd web pages with blockchain API integration and DeFi which displays cryptocurrency trading platform.
- Collaborated with back-end developers and web designers to improve usability and used markup languages like TypeScript, JavaScript, React.js, Node.js, Tailwind CSS and other technologies to create user-friendly responsive web pages.
- Worked with clients for feedback to maintain, troubleshoot and improve website.

React Native Developer

Jul 2022 - Feb 2023 | One Key HQ

- Responsible for developing mobile applications using React Native, JavaScript, TypeScript, Expo, Redux, Node.js and other related technologies. Specialized in building cross-platform mobile apps that can run on both iOS and Android platforms.
- Collaborated with designers and product owners to translate UI/UX designs into functional mobile app interfaces. Used native blockchain and DeFi APIs to complete integrations.
- Worked closely with cross-functional teams, including designers and backend developers. Ensured that the user interfaces for all applications are smooth and visually appealing

Junior FrontEnd Developer

Feb 2022 - Jul 2022 | Rari Capital

- Designed and developed frontEnd web pages with blockchain API services and DeFi which displays cryptocurrency trading platform.
- Collaborated with back-end developers and web designers to improve usability and used markup languages like TypeScript, JavaScript, Next.js, Node.js, Framer Motion to create user-friendly responsive web pages.
- Worked with clients for feedback to maintain, troubleshoot and improve website.

Junior FrontEnd Web Developer

Jul 2021 - Feb 2022 | Fintechee

- Designed and developed frontEnd web pages with blockchain API services which displays cryptocurrency trading platform.
- Collaborated with back-end developers and web designers to improve usability and used markup languages like HTML, CSS, JavaScript to create user-friendly responsive web pages.
- Worked with clients for feedback to maintain, troubleshoot and improve website.

CERTIFICATIONS

Boston Diploma | Information Technology

This certificate asserts knowledge in Systems Development (Java), Technical Systems and Support (A+), Database Programming (DB Technologies & SQL), Software Testing and Praxis S2 (MSAccess & SQL).

DevLabs Alliance Certified | AWS

Competency assessed in AWS, including EC2, S3, Lambda, Elastic Beanstalk, Alarms, Bucket, Snapshots, and much more. Learn to manage scalable applications, use automation tools, and provide a secure solution to your client. All this comes equipped in our ultimate course on AWS.

DevLabs Alliance Certified | ReactJS

Competency assessed in client-side routing using React Router, global state management and transitions using Redux, server-side rendering and testing using Jest, Enzyme.

P R O J E C T S

YAM Finance

Javascript, Typescript, DeFi, Blockchain API, Tailwind CSS, HTML

Feb 2023 - Present

Yam finance website. Link - [here](#).

OneKey: Blockchain DeFi Wallet

Typescript, Javascript, Framer Motion, DeFi, React Native, Expo, Redux, Blockchain API, Node.js

Jul 2022 - Feb 2023

Secure, open source and community driven crypto wallet runs on all platforms and trusted by millions. Link - [here](#).

Rari Capital

JavaScript, TypeScript, DeFi, Blockchain API, Next.js, Framer Motion, Node.js

Feb 2022 - Jul 2022

Rari Capital's Web3 Portal. Link - [here](#).

XcoinCH

JavaScript, CSS, HTML, Blockchain API
